

Flexible tanks

Our wide range of tanks allows storing many types of products temporarily as well as permanently.

Each of the materials used to manufacture our tanks is selected carefully to meet the requirements of each liquid to be stored. For each application, a specific fabric is used to make the tank.

Easy and quick to setup (no need for a building permit), the only condition is to have access to a flat horizontal surface on which the tank can be laid out.

Equipment available :

- Valves.
- Semi-symmetric connection.
- Exhaust pipe.
- Valve protectors.
- Repair Kit.
- Transportation bags to be used as floor mats to place underneath tank.

Our tanks come with complete range of accessories. Technical and building maintenance support is carried out by our specialists worldwide.

	Open tank	Closed tank
Volume (m ³)	1 to 120	1 to 400
Potential use	Fire fighting / waste water / drinking water / rain water / oil / chemicals	

NOTE : We reserve the right to make changes and alterations which optimise our products or to ensure they correspond to the latest technology and specifications.
