

Inflatable center point MPZ and TCNG tents

The inflatable center point tents are used as central connections between up to four inflatable tents and/or containers, vehicles or other types of tents.

These tents feature easy handling, fast installation and have an excellent wind resistance.

The tent can be erected in just minutes with an electric inflator, and a single person can do the assembly. The center point tents exist in two versions :

- The MPZ tent is indicated for short-term use.
- The TCNG tent is indicated for medium or long-term use.

The ground fastening rings and the guy lines keep the tent anchored to the ground in foul weather conditions.

Worldwide support and assistance are provided by our specialized technicians.

Features :

- Tent hub with 4 doors (one on each side).
- Inflatable frame.
- 4 carrying handles with eyelets for ground fastening.
- 4 guy lines.
- Double flap doors for the MPZ and single flap doors for the TCNG.
- Possible connection with other types of tents.
- Weatherproof door closing.
- Transport bag.
- Accessory bag: stakes, hammer, repair kit and stabilizer rolls, hand pump, user manual.
